Re: Lincoln County  
County: Lincoln  
Water Pollution Control Number 11-0385  
Project: B&W Growers Land Application Treatment System

Dear Mr. Morse:

The Tennessee Department of Environment and Conservation, Division of Water Pollution Control, acknowledges the receipt of construction plans and SOP application #11021.

You are granted permission to begin preliminary site work in preparation for installation of the above system. This is not an authorization to install system(s) as outlined in SOP application and/or Construction Plans nor it an authorization to supersede any other require permit(s) (i.e. Aquatic Resource Alteration Permit (ARAP) and/or a National Pollutant Discharge Elimination System (NPDES) Construction Storm water permit. . .etc.)

The Division of Water Pollution Control is authorized to inspect any construction work to verify compliance. **Therefore, the engineer shall notify the Water Pollution Control Office at the Columbia Environmental Field Office (931) 380-3371 of the start of construction.**

**This approval of preliminary site work should not be construed as a permit for any activities related to this project.** Activities which may require a permit under the WQC Act and Regulations include, but are not limited to, the following: streambank vegetation removal; creek crossing(s) for equipment or utility lines; construction within twenty (20) feet of a stream bank; construction in or near a marshy area or wetland, and/or land disturbance greater than one acre.

**Additionally this approval does not authorize connection and use of sewer that will cause or contribute to collection system overflow or overload of receiving wastewater treatment facility. The Water Pollution Control Office previously referenced should be contacted for determinations regarding whether modification of the existing NPDES or SOP permit, an**

**Aquatic Resource Alteration Permit (ARAP) and/or a National Pollutant Discharge Elimination System (NPDES) Construction Storm water permit will need to be obtained prior to the beginning of construction of this project.**

To expedite matters, please reference the assigned Water Pollution Control number on any future correspondence. If we may be of any assistance, please contact us at (615) 532-0663.

Sincerely,

James M. Sutherland  
Environmental Protection Specialist
